

ACCESSIBLE TELECOMS

A new free service for people with disability

Discover which phone or tablet is the right fit for you and learn how to use it

What is Accessible Telecoms?

- Accessible Telecoms is a nationwide disability telecommunications information and referral service and is funded by the NDIA.
- It provides Information about the accessible features available in telecommunications products and equipment suitable for people with disabilities.
- Find out which mobile, tablet, landline device or phone accessory will suit you best, and where training for the equipment can be found.

Accessible Telecoms has been developed by ACCAN, and is delivered by IDEAS through their existing call centre and website. The project is funded by the NDIA.

Learn more about the devices you are using

Do you want to get the most out of your devices?

Looking for the right device that will suit you?

Would you like to learn more about all the features on your mobile phone?

At Accessible Telecoms, you can find the right training sessions to suit the devices you use.

If you have difficulty speaking to people when using a phone, the National Relay Service (NRS) can help you.

Contact Accessible Telecoms now to find out how

How can you access the service?
