

Conference Speakers and Sponsors 2022

- 9:00am **Housekeeping and Kahoot! Preparation**
Please download your Kahoot! App from one of the App Stores and check out how to play before the conference!
- 9:05am **Welcome to the New Digital ASCCA - Resilience and Rebuilding**
Jennifer Willcox, ASCCA President
- 9:10am **Acknowledgement of Country**
Jennifer Willcox
Winner of the Acknowledgement of Country video announced and shown
- 9:15am **Official Conference Opening**
Nan Bosler, AM
ASCCA Emeritus President
- 9:20am **Club Update *Rebuilding after the Pandemic***
Computer Pals for Seniors Newcastle - Barry Keen
Barry has been a member of the club since 2008, filled several positions on the committee over the years, and has been the President since 2021. He has had a long interest in computing applications and a background in teaching adults and children, as well as having been a community volunteer in service clubs, scouting and other organisations for 50+ years. Barry maintains a positive and enthusiastic attitude and encourages others to be likewise, and not be frightened of change but to look for the opportunities and embrace them.
- 9:30am **Office of eSafety**
Paul Clark
Be Connected is an Australian Government initiative implemented in partnership by the Department of Social Services, the eSafety Commissioner and Good Things Foundation Australia, committed to improving the online confidence, skills and safety of older Australians. The Be Connected website, managed by eSafety, provides free information, learning modules, webinars podcasts and more - visit beconnected.esafety.gov.au.
- 9:40am **Accessibility What's New for 2022**
Dr Scott Hollier
There's been a number of great access improvements to our everyday devices. Dr Scott Hollier will provide an overview of the new accessibility

features we can now find in our Windows, Apple and Android computers and devices. There will also be some discussion on the potential of immersive environments and future accessibility support on the horizon.

- 10:00am **Apple Workshop – Personalising iPad and iPhone**
Ellora Conn
Apple’s new operating system, iOS 16, is packed with great new features to help you get even more out of your iPhone and iPad. We can’t wait to share with you the new Door Detection in iPhone and personalise accessibility options, such as Dynamic Font in Control Centre, where you can quickly alter font size to meet your vision needs. This session is focused around how to use the built-in features on iPhone and iPad. Take away some practical tips for personalising your Apple devices with features like Live Text, Safety Check, Medication Reminders and more. Learn something new for you to use, as well as something to share with others.
- 10:30am **Be Connected Update**
Jess Wilson, CEO
After five years of delivering the Be Connected program aimed at supporting older Australians to thrive online, we will look back at the successes, challenges and learning and look forward to what is next for the program and how much more there is still to do to fix the digital divide.
- 10:40am **Kahoot!**
- 10:45am **Google Workshop - Smart life Ecosystem**
Alex Lynch and Rory Charleston
- 11:10am **Cybermindz.org - Interactive iREST session**
Peter Coroneos
Restoring calm in a hypervigilant world
Learn about the neuroscience of stress, how the cyber world is challenging our ancient evolutionary defences and how we teach stress management to cyber teams, including a facilitated shift into a deep state of calm (practical demonstration)
- 12:00pm **SPONSOR: NORTON 360 Advanced**
Mark Gorrie
Discuss the challenges of cyber safety in current environment
How your data can end up on the dark web and exposed to identity theft
Steps to take if your personal information is compromised
How Norton helps protect consumers against identity theft and other online threats with complete cyber safety solutions
- 12:15pm **SPONSOR: NOKIA**
Brenden Folitarik
The HMD Story and our mission
The love it, trust it keep it mantra
Our most ruggedized device yet
Our most sustainable device yet

- 12:30pm **Kahoot!**
- 12:35pm **Trends in Tech**
Charlie Brown
- 1:05pm **SPONSOR: YourLink**
Richard Scenna
YourLink partners with aged care providers, community organisations and businesses to deliver digital skills programs that build confidence, improve wellbeing and create social connection. We will share insights and how these projects come to life in a safe and fun learning environment. We will also provide examples of hope and change for seniors, carers and the care workforce. These projects with providers have been recognised as Finalists in Future of Ageing Awards 2022 and Aged & Community Care Providers Association (ACCPA) Innovaging Awards 2022.
- 1:20pm **Club Update *Successful Programming Using Be Connected in Your Neighbourhood Centre***
Willeton Technology Club for 50+ - Megan Grant
How to use Be Connected successfully in your Family or Neighbourhood Centre. What has worked for us and what hasn't. Tips for success. Adding a social element. Using your Digital Mentors effectively. Take advantage of available Grants and training provided by Good Things Foundation.
- 1:30pm **SPONSOR: NBN Co - Scams Awareness**
Scams
- 1:45pm **Services Australia**
Hank Jongen Agency Spokesperson: Services Australia
How the Australian Government is making digital services simpler so people can go out there and have more fun. Hank will highlight some examples of work already delivered as well as work in progress (like the new myGov platform) and will also give you a glimpse of what the future holds. Be warned, there may be a few dad jokes thrown in for good measure.
- 1:55pm **Kahoot!**
- 2:00pm **Scamwatch ACCC Update**
Eti Abdulioglu and Mary Glykokalamos
Scamwatch, run by the Australian Competition and Consumer Commission (ACCC), receives around 600 reports of scams from the public every day. Eti and Mary will provide an overview of what scams are affecting Australians (particularly older Australians) the most in 2022, how they work, and what you can do to protect yourself.
- 2:15pm **Quantum Reading**
Peter Cracknell, Manager Vision and Blindness Technologies, Quantum RLV
Many older Australians have embraced technology very successfully, particularly email, Facebook, online banking, genealogy programs and

games. They have become very adept and connected! But what happens when age-related conditions such as macular degeneration affects your vision, making screens appear blurry, icons indistinct, and text unreadable? What do you do when the lettering on your computer keyboard appears to fade away? Peter will suggest some assistive software and hardware options that have helped many people with low vision to continue to use their computers.

- 2:30pm **Amazon - Smart life Ecosystem**
- 2:55pm **Benbroadly.com Drone Pilot, Astro Photographer, Kimberley Expert**
Ben Broady
Ben grew up in Wyndham, Western Australia and remembers as a young boy, having his face pressed up against the window of the school bus, staring in awe across the mudflats at the Cockburn Ranges.
Today, he is privileged to be able to walk those ranges with reverence and humility in his heart and the gift of imagination. Focussing his collection from all around the East Kimberley, Wyndham, Kununurra, Lake Argyle, El Questro, the Ord River and Purnululu. His photography aims to raise awareness about this majestic, ancient, albeit fragile part of the world and inspires people to come and visit.
- 3:05pm **eGaming and eSports**
Brett Levy
- 3:15pm **Kahoot!**
- 3:20pm **ASCCA Competition Winners!**
Susan Jensen
- 3:40pm **SPONSOR: MindSpot Clinic**
Priti Thadhani - Clinic Manager
Technology is everywhere and it is fast evolving. The pandemic accelerated development and adaptation of technology in many sectors including healthcare. At MindSpot, our passion for reducing barriers to mental health care took us on a decade long journey to learn about digital tools, how we can support the community across Australia to improve their mental health and wellbeing, and most importantly to connect people in need with trained mental health professionals who can support them - when they need it, where they need it.
- 4:00pm **SPONSOR: NBN Co – New Seniors Program**
Robert Friedman
- 4:15pm **Closing Keynote**
The Alternate Reality / Virtual Reality Metaverse
Alex Zaharov-Reutt
- 4:30pm **KAHOOT! AND Lucky Door Prize (Ticket Number)**

- 4:45pm **Conference ends**
Announce 2023 Conference - Wednesday 8 Nov 2023
"Living Your Best Digital Life - everything you need to know!"
- 4:50pm **Disconnect and reconnect to the AGM link**
- 5:00pm **ASCCA AGM**
Registration essential
Please use this [LINK](#) to register, details will be emailed to you
- 5:30pm **AGM close**
